SPECIALTY CATEGORY DEFINITIONS

The specialty categories are designed to address a specific business situation or challenges. When entering these categories, you should present your entry in a way that addresses the situation or challenges as outlined in the category definition. It is critical to thoroughly review these category definitions to ensure that your effort meets the specific category definition. Judges will down score your entry if you are missing information required by the category definition.

PRECISION MARKETING CATEGORIES

Business-to-Business Products & Services: For marketing efforts from businesses targeting other businesses. Includes B2B efforts for any type of product or service, from any marketplace segment.

Families & Children: This category will honor those efforts that successfully communicated to parents of children aged 12 and under. Your entry should be written in a way that identifies how the case was created and directed to this audience and how it succeeded. For these efforts targeting children, it can be helpful for judges to include any relevant information on the restrictions and requirements that are a part of communicating to this audience.

Youth Marketing: This category honors work that effectively engages teens or young adults. Your entry should clearly demonstrate how the campaign was crafted specifically for this audience and how it succeeded. Detail the elements and strategies tailored to the youth market, and explain how you addressed relevant dynamics, trends, values, and linguistic nuances that resonate with this demographic.

Note: Judges may not be familiar with this particular audience, so showcase details that may be overlooked. Enter in one of two sub-categories:

- Youth Marketing – Products
- Youth Marketing – Services

BRAND CONTENT, ENTERTAINMENT & EXPERIENTIAL MARKETING CATEGORIES

As with all Effie categories, you can enter whether your work brought the brand to life as the entire marketing effort or as part of the larger marketing program. If the content was part of a larger campaign, demonstrate the contribution of the content as part of that campaign.

Brand Content & Entertainment: This category recognizes efforts that successfully engaged audiences through original branded content that goes beyond traditional advertising. The focus should be on content created to be actively sought out and consumed by the audience for its entertainment or informative value. Entries must detail the content itself, its alignment with brand and business objectives, the distribution and audience engagement strategy, and the measurable impact on the brand and business. Branded content may be produced and distributed by publishers or independently and can include long-form entertainment.

Note: Judges will expect to understand why branded content was chosen as a tactic.

Brand Integration & Entertainment Partnerships: This category honors brands that have effectively reached their audience via strategic integrations and entertainment partnerships. Submissions should detail how the brand was seamlessly interwoven in an engaging way. Detail the strategic reasoning behind the partnership – why was this partner chosen over others? Clearly explain the selection process of the partner, and how this partnership led to the results that met the brand objectives.

Experiential Marketing: This category is to showcase brand experiences beyond traditional advertising – work that truly brought a brand or product to life and interacted with a specific audience to achieve desired objectives should be entered. It may include a re-invented product demo, re-imagined pop-up, or a “brick and mortar” retail overhaul; it may have created a new game, an alternate or virtual reality experience, or an interactive/immersive film experience that effectively showcases a new product or brand personality. Award winners will show how the brand is reaching out to their audiences to establish meaningful relationships, memorable, engaging experiences, and unique connections. Entrants must address how the experiential marketing related back to the overall brand strategy. Judges will expect to understand the ‘participation’ in the experience as a core factor. Enter in one of three sub-categories:

- Experiential Marketing: Live
- Experiential Marketing: Digital
- Experiential Marketing: Hybrid

BUSINESS ACHIEVEMENT CATEGORIES

Corporate Reputation: Marketing efforts that promote corporations, not exclusively their products. Includes sponsorships, image, and identity. In addition to presenting metrics related to the reputation, entrants are encouraged to also address how these metrics relate to the business of the brand and why they are important.

David vs. Goliath: This is an award for smaller brands, or new/emerging brands that are less than five years old making inroads against big, established leaders, taking on “sleeping giants,” beyond their current category and set of competitors to tackle a dominant leader. Entrants must detail the business challenge, the competitive landscape, and how the business succeeded despite the odds. Define your competitive landscape, including the market difference between David and Goliath to demonstrate why the brand was a David.

Note: Judges will deduct from the case without sufficient proof that the submitting brand is a David.

Marketing Disruptors: For efforts that grew the business/brand by changing the marketing model in ways that drive the industry forward. A marketing disruptor of any size can enter. Detail the marketing challenge, the competitive landscape, and how the brand succeeded by changing the existing marketing model for the brand/category. Note: Judges will deduct from the case without clear articulation regarding how the marketing was disruptive for the brand/category.

Small Budgets: To be eligible, an entry may not be for a line extension and must represent the only marketing efforts for the brand during the time period. The value of donated and non-traditional media as well as activation costs must be included. Budget eligibility is as follows:

- Local Efforts: AED 300,000 or less
- Regional Efforts: AED 500,000 or less

Enter in one of three sub-categories:

- Small Budgets – Products
- Small Budgets – Services
- Small Budgets – Non-Profit

Sustained Success: Efforts that experienced sustained success for at least three years are eligible for entry. At a minimum, include at least three years of creative work and case results, and include the current competition year's results. Work must have a common objective in both strategy and creative executions; with a continuation of core executional elements (e.g., spokesperson, song, theme, tagline, etc.) that demonstrates effectiveness over time. As part of the entry, specifically address how the effort evolved over time (e.g., media choices, targeting, insights, new products/services, etc.). Answer all questions for the initial year and describe how/why change occurred over time. Enter in one of three sub-categories:

- Sustained Success – Non-Profits
- Sustained Success – Products
- Sustained Success – Services

To enter, you must be able to provide data about the case that spans at least 3 years – an initial year, an interim year and current competition year (04/01/2025 - 06/30/2026). Having a case that spans more than three years is fine but you must still provide specific data and creative for at least three years, including the competition eligibility period.

Note: There is a special entry form and different creative requirements for the Sustained Success Award. The creative requirements, including different rules for the creative reel, can be found in the Sustained Success form.

COMMERCE & SHOPPER CATEGORIES

Honoring the most effective integrated campaigns based on a specific shopper insight and designed to engage the shopper and guide the purchase process to achieve conversion. An effort may be entered into a maximum of two Commerce & Shopper categories.

Digital Commerce: This category is for campaigns that effectively used insights, strategy, creative, and analytics to drive digital shopper conversion. Show how, by utilizing data and a deep understanding of the shopper, the brand and/or retailer succeeded in a digital setting. A successful effort will combine strong shopper knowledge with digital marketing practices to increase conversion online. The effort must be based on a shopper insight(s) and be shopper-driven. Explain the strategy of how the effort went to market. Submissions in this category will be solely evaluated on digital commerce effectiveness.

Experiential Commercial Marketing: This award features work that truly brought a brand, product, or retailer to life – either literally or virtually – and interacted with shoppers to influence conversion. You may have re-invented the product demo, re-imagined the pop-up store, led a “brick and mortar” retail overhaul, or created a new game/interactive film experience that effectively showcases a new product/brand personality. As long it truly came alive and worked. The winners of this award will show how brands and/or retailers are reaching out to audiences to establish meaningful relationships, engaging experiences, and unique connections. Entrants in this category must address how the experience related back to the overall brand strategy.

Omni-Channel Shopper Solution: Winners in this category will represent the best examples of manufacturers and retailers committed to providing effective omni-channel shopper programs. Enter brands that have ensured an effective, connected shopper journey and showcase how manufacturers and retailers are connecting the dots in their engagement strategies to ensure simple, seamless, effective experiences across the shoppers’ path to purchase. In- store, online, customer service, loyalty programs, mobile apps, delivery services, social media, aisle disruption – it could entail anything – as long as the case illustrates how it was all connected to provide a fully integrated “shopper journey” from beginning to end.

Retail Media: This category highlights the success achieved through strategic collaborations between retail media networks and brands, driving measurable business growth for both parties. Whether digital or in-store, or omnichannel, demonstrate how your efforts were tailored to specific customer segments using data-driven insights. Showcase the use of multiple channels, both online and offline, to deliver a cohesive and effective campaign that resonates with your target audience and drives tangible results for both retailer and brand.

DIGITAL CATEGORIES

Honoring the most effective convergence of data, technology and all forms of creative that maximize end user engagement and conversion.

Artificial Intelligence (AI): For the AI Category, entrants are required to showcase their effective use of artificial intelligence to drive meaningful business outcomes. This category recognizes outstanding campaigns and initiatives where AI was leveraged as a pivotal tool to achieve specific business goals, whether it be enhancing customer engagement, optimizing operations, increasing sales, or any other measurable objective.

Entrants must provide clear evidence of how AI was integrated into their strategy and demonstrate the tangible impact it had on their business growth and desired results. This includes detailed metrics, analytics, and any other relevant data that highlight the effectiveness of the AI implementation. The judges will be looking for entries that not only display creativity and technical proficiency but also a profound understanding of how AI can be harnessed to produce real, quantifiable success.

Influencer Marketing: This category recognizes brands that successfully partnered with influencers to achieve short or long-term marketing goals. Influencers can range from micro to macro and include social media personalities, brand

ambassadors, and bloggers. Clearly define the strategy, target audience, and why the influencer was chosen. Highlight how the influencer engaged the audience, influenced consumer behavior, and contributed to the brand's success by driving measurable business results.

Performance Marketing: This category celebrates the most impactful performance marketing strategies, where a combination of tactics generated significant, incremental results and conversions. Describe how you leveraged the synergy between your organic and paid ecosystems to create a halo effect, using data-driven insights, agile testing, and continuous optimization. Your submission should be performance-led, demonstrating how approaches such as (but not limited to) affiliate marketing, paid search, SEO, email campaigns, personalization at scale, influencer or sponsored content directly drove measurable outcomes like increased revenue or leads.

Social Media: This category celebrates campaigns designed around social media as the primary touchpoint, leveraging its influence to engage connected consumers. Focus on campaigns where social media was the core idea, not just an element. Provide a clear rationale for using social media, demonstrate its direct impact on audience behavior, and show how it drove measurable business results.

MEDIA CATEGORIES

These categories reflect the importance of the use of media in driving effectiveness and will be judged by experts within the media industry across brands, agencies, and media owners. Submissions must speak to the media channel choices and measurement methodologies.

Data-Driven: Data-driven is the application of data and/or technology to connect people to the brand at the right moment/s. These efforts should prove how they specifically utilized data to drive creativity or to optimize media to improve business outcomes (brand kpis, ROI, performance marketing measures, etc.).

The best examples will recognize the interplay and application of data, inclusive of automation and AI, to engage with and/or deliver to a precise audience and achieve the best results. To enter, your case must detail the role that data had within the creative and/or media strategy in achieving the brand and business goals.

Submissions are expected to:

- Utilize personalized/custom-tailored creative messages.
- Explain how data impacted the media plan through clear measurement & analytics.
- Demonstrate the insights captured from data used to understand audience.

Media Idea: This category is about outstanding effectiveness as a result of media-led ideas. The line between what constitutes a creative idea and a media idea is blurring and there are occasions when the media idea drove the entire effort. Of course, media cannot exist without the content, but this award is intended to recognize those cases that were led by the media thinking – where the integration of media and message led to success. The award honors media-led ideas that are powerful enough to become the genesis of the marketing program itself, to the extent that the program would not have been successful without the strategic media idea.

Media Innovation: This award showcases those who had the insight and creativity to change the way a particular media channel is consumed, or to create a new channel. The award will go to brands who reached out of the conventional approach to grab their audience and effectively engage with them. Whether the effort was one execution or multiple, and/or used one engagement channel or multiple – the work must represent new and creative usage of the media channels we know and love, or have not yet met. Note: All entries must specifically address what was innovative and the results achieved. Address the category situation and provide clear articulation of how the media was used innovatively and how the media strategy/plan optimized the results. Enter in one of two sub-categories

- Media Innovation - Emerging & New Channels
- Media Innovation - Existing Channel

This category awards innovative single marketing and business activities or entire marketing programs. If communication was a significant element of marketing mix, work should be submitted in another category.

Examples include initiatives that tackle food poverty; access to healthcare or education; creating a more diverse, equitable and inclusive society; or creating equal opportunities at work and in wider society for all members of our society. Any effort that sets out to give back in some way for the greater good is eligible to enter, and any/all marketing efforts, whether full campaigns or unique efforts within a campaign are eligible to enter as long as measurable results exist.

Highlight the impact and effectiveness of these actions on the brand's success. Examples may include shifts in brand positioning, portfolio management, digital acceleration, and more.
